## Used Marble Machines Supply

We knew all the stones & marble machinery, equipments manufacturers & dealers around the world so we able to supply quality used machinery for marble, granites, stones, tiles production and processing with free erection & commissioning including training.

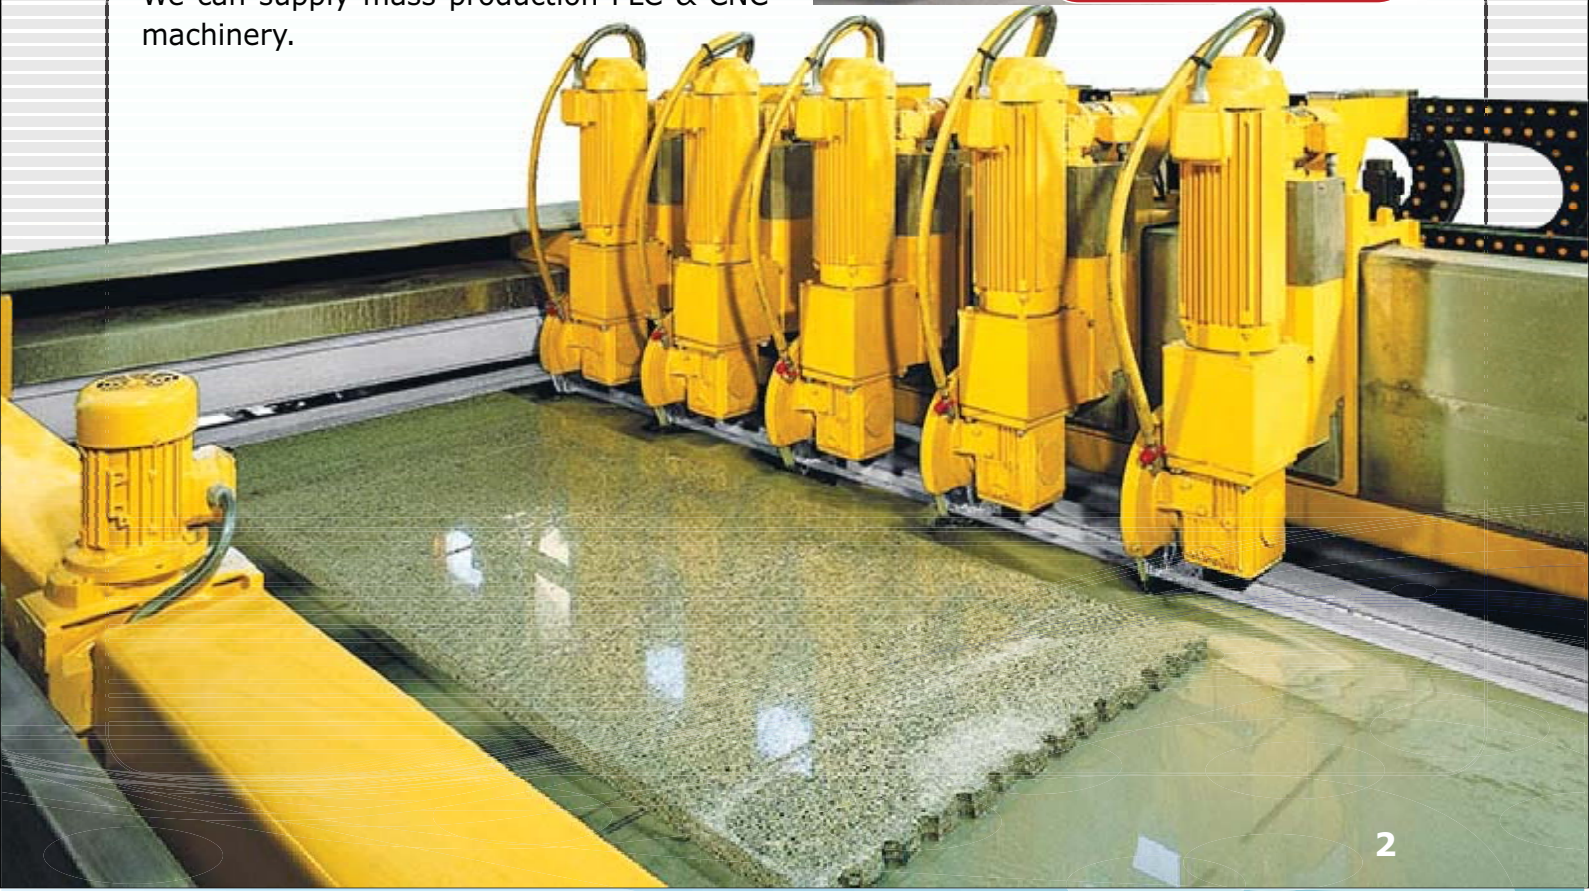

We do test and inspect all the machinery before they are shipped to our customer to give a guarantee of good working condition We can supply mass production PLC & CNC machinery.

Drilling Machine

Polishing Machine

## Rental Marble Machinery

We are specializes in contractor equipment rental, as well as industrial equipments rentals. Our staff is experienced and helpful in assisting you with selecting exactly what you need for your construction project, home repair or improvement project. We carry a diverse selection of well-maintained construction equipment: everything from industrial tools to dozers.

## Machine Repairs & Maintenance

We can give you a quick and reliable repair service to extend the working life of your equipment. even any brand, any type, any repairs. Whether it's electronics, electricals, hydraulic, mechanical, pneumatic or you just don't know what the problem is, call me.

We have in stock all kinds of parts, controls, controller, drives, motors, tool and replacement parts for less time & money than you can get them from the factory. Need to update your machinery or equipments? We can even add to or upgrade your equipment. Of course, this is not always a cost-effective option so give me a call and we'll discuss it in detail. We can even rebuild & recondition like a brand new machine accuracy.

## Equipment Inspection Services

Looking at a used piece of equipment? Want an impartial & professional opinion before you buy? I will provide video and written documentation before you spend your hard-earned money. After my detailed video documentation, I will give you a website to download it and watch it the same day. Technology overcomes many previous hurdles and allows you to make the right decision in a matter of hours, not days. That could mean the difference in a deal of a lifetime or a lemon purchase that could slow the growth you have worked so hard to achieve.

## Equipment relocation & setup

Whether you have bought a used piece of equipment, moving your shop, or you just need to rearrange your shop, we can help. A few feet, a few blocks or across the country, we can take care of it! From disassembly to setup & training, we will take care of it for you.

No matter how great that piece of equipment is that you just bought, without proper setup & training you can't take full advantage of it. I'll work with you to get the maximum return on your investment & the desired increase in productivity. Use this service in conjunction with my inspection service and save money!

## Spare Parts & Accessories

Our parts centers are supply replacement parts for all makes & models of Marble profile machines even older Lifts that are no longer manufactured.

We are also able to offer a backup unit from our hire fleet in instances where the customer's Marble profile machines is removed from service for major service work clients.

## Marble Stones Supply

### High Quality Natural Marble Available To You At Quarry Direct Pricing.

Jupiter is a leading wholesale marble, granite supplier, stocking a wide variety of natural solid rock, stone slabs and tiles. Jupiter prides itself on the wide range of natural stone products, the unusual collection of unique stone, and its quality. Jupiter is very proud of its reputation as the place to go for unusual stone and the wide variety of complementary products: marble tiles, granite tiles, porcelain tiles and glass mosaic and stone tiles.

Jupiter provides a one stop shopping for its professional customers and homeowner looking for natural stone and other surface material for their projects. The wide range of stone product includes but is not limited to granite, marble, quartzite, limestone, travertine, soapstone, sandstone, basalt in a slab and tile format

We offer the finest selections of natural stones from our overseas quarries and factories that deliver thousands of tons of specified and finished marble, granite and stone each year. Our stones are produced to your specifications and instructions. Our service is unsurpassed, from the selection process, to the finished product, to meeting or exceeding expected quality.

Jupiter additionally produces their well-designed unique Pre-fabricated standardized countertop system, for the residential importing fabricators further reducing your labor costs. Additionally - prefabricated countertops and vanities are ready to install with any standard sizing you want, including the creation of your own personal program. This applies to importing trade professionals only with container scale orders. Please review our prefabrication page for scaled drawings, for our countertops.

## Marble Tiles & Custom Design

We provide our customers with a first class distribution and tiling service. We deal directly with the source which enables us to sell our tiles at the lowest possible prices. Our range of premium quality natural stone and engineered tiles includes; Marble, Granite, Slate, Travertine Porcelain and Quartz. We also supply worktops, grout and adhesive, mirrors and under floor heating mats.

With a massive selection of tiles in stock we are guaranteed to have what you are looking for. Tiles Marble ensures that the process of choosing, purchasing and receiving tiles is as quick and easy for our customers as possible. You can order samples of our tiles online or alternatively contact our friendly sales team for any additional help and advice.

We have supplied tiles for a vast range of projects, from home improvements to huge commercial renovations – no job is too big or too small. As part of the full service at Tiles Marble we will also recommend a reputable tiling contractor to install your tiles.

## Marble Maintenance Service

Is your granite or stone worktop damaged – cracked, chipped, damaged edge, stained, lost its sheen...we can deal with most problems, provide you with a fast, long lasting repair that is in most cases almost invisible. You may find our guidance on looking after your granite worktop useful. We use the latest technologies to provide the best repair possible.

- Marble / Granite repaired on-site
- Marble Repair
- Marble Refinishing
- Marble Stripping & Cleaning
- Marble Sealing / Resealing
- Marble Restoration
- Granite Repair
- Granite countertop Sealing
- Granite Resealing
- Granite Cleaning
- Granite Restoration

Jupiter provides all types of maintenance services related to all types of stone including marble, granite, limestone, travertine, quartz and composite (engineered) stones – including cleaning, worktop levelling, joint cleaning and refilling, polishing, waxing, impregnating and sealing.

When restoration isn't necessary or appropriate, our clean/strip, polish and seal services are excellent maintenance practices for marble, slate, limestone, granite, terrazzo and ceramic tile. We use the most durable sealants to protect your stone floor against spills and grime. Elegant Floor Service has a large base of commercial, government and residential customers for our marble and natural stone services. We can tackle your one time requirement or perform regular maintenance.

We can carry out repairs to marble floors, marble sculptures, tables, bathroom tops or exterior steps or cladding. Where an invisible repair can be made, then this is usually the first option, however we can organise the manufacture of replacement marble where necessary. Repairs to marble are done using epoxy resins, which we mix and match to the colour of your marble. The repair is then sanded and polished to match the shine of your marble surface. Where appropriate marble dust is used to match the marble.

## Marble/Granite Profile cutting

We are engaged in offering a comprehensive range of marble cutting service, which is used for cutting materials to a thickness of 25 cm. Marble cutters are used for cutting concrete, granite, sandstone, marble and tiles, company logos, wall covering elements or inlays. The first hole in the material is made at reduced cutting pressure of 800 bar, to ensure that the cutting materials do not chip or crack. because of low ductility of stone and tiles for minimizing the risk of chipping and cracking.

## Marble/ Granite process waste water management

Whether you're fabricating granite or another type of stone, a zero discharge wastewater treatment system is the key to avoiding costly non-compliance fees and reducing your production costs. Beckart achieves these goals with closed loop systems that thoroughly remove all stone process waste, allowing you to recycle and reuse your process wastewater repeatedly for cutting and polishing. And, we'll custom build your system to meet your needs and to work seamlessly within your facility with your existing equipment. Each zero discharge system we design features our Hy-Pack® filter press, ensuring superior separation, dewatering, and compacting of wastewater particulate. These filter presses consistently out-perform the industry standard membrane-type filters, and the end result is less maintenance and system downtime, and ultimately, a lower operating cost.

A Beckart zero discharge filter press system for stone water treatment also comes with these other benefits:

- Less water use and reduced water costs
- Expandable filter presses to grow with your business
- Flow rates of 10 GPM-200 GPM
- Solids filtered water down to below 1 micron
- Creates dry, landfill-ready filter cakes
- Automation options
- Forkliftable sludge carts

## Marble custom design manufacturing

We specialise in custom marble designs. We are one of the Worlds leading marble designers and have years of experience designing any conceptual design that could be imagined. With our team of designers, artists and master craftsman we are confident that we can provide for you the perfect artistic piece that you will enjoy for years to come.

If you find a design that you like you can either order this actual design or customize the design to your exact specifications, such as marble type/color, dimensions or even the actual conceptual design. If you choose to customize a design that you have found online you can simply contact us with our online form or call us toll free and tell us the model number that you are interested in.

Our team of designers will provide for you a digital proof of your purposed modifications to the model number and once you have agreed and signed off to the design we will start the creation of your custom marble piece.

We consistently strive to deliver the top level of excellence that is simply unsurpassed in the countertop construction industry. From initial customer consultation and project planning to fabrication of countertops and to follow-up of countertop installation, we achieve our goals.

Marble custom design manufacturing

## Marble artistic/creative Services

Outstanding creativity, ingenuity, and craftsmanship for Architects, Commercial and Residential Builders and Interior Designers that exemplifies professional mastery in the use of Natural Stone.

Utilizing state-of-the-art waterjet technologies, we are able to deliver custom stone fabrications directly from CAD design as the cutting path follows a computer generated drawing. This new technology allows unlimited design capabilities. Masterpieces in stone, tile and other materials can be created for our clients' needs. Our staff artist can work with you to develop your own custom design, logos or we can work from client designs.

## Marble Installation Services

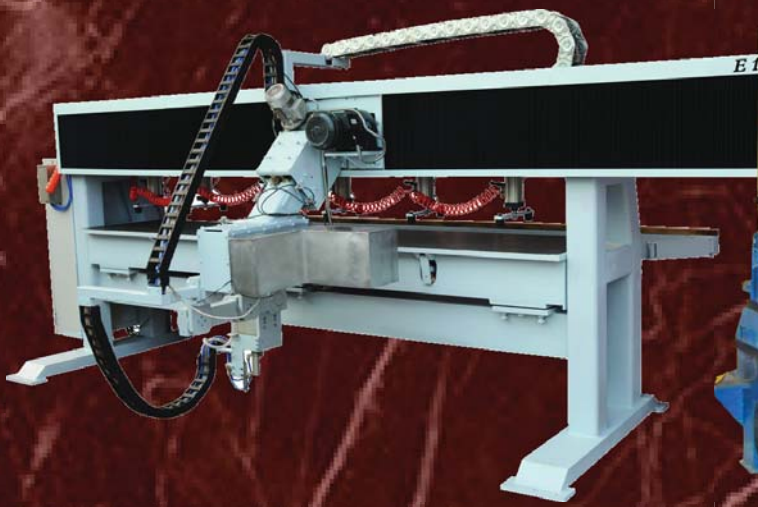

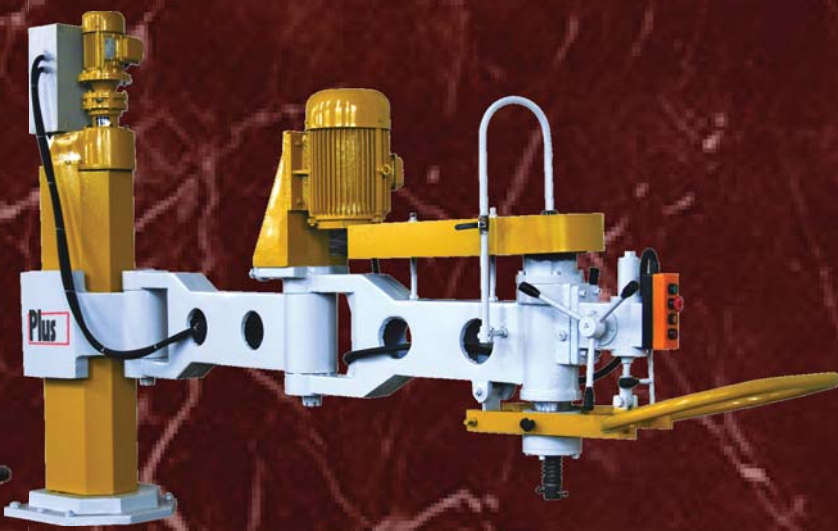

Any tile or marble installation requires the knowledge and experience of a professional. Incorrectly installed tile or marble can easily become cracked or loose in a very short amount of time especially in high traffic or high use areas. A professional installation will guarantee that your surface stands the test of time and gives your business or home many years of enjoyment.

Jupiter provides top-quality, professional ceramic tile and marble installations. We only work with high-quality tools and proven industry techniques to install a beautiful surface that will maintain it's beauty for many years to come.
